

PsychInquiry CD

Activity name:	Evolutionary Explanations of Sex Differences
Student's name:	

Instructions: Complete this worksheet and hand it in to your instructor.

Questions

1. How do men and women differ in what causes them to experience jealousy? How do evolutionary psychologists explain this difference?

2. Do you observe a gender difference in the responses of the couples in the video clip?

3. How do evolutionary psychologists explain the difference between men's erotic magazines and women's "romance novels"?

4. Were you more or less persuaded by the evolutionary psychologists' arguments than other students who have participated in this activity?
